Audio & FOH

- **Sound Engineer:** Electric Cowboy travels with an own FOH engineer (vital to the show, unless agreed otherwise). Requires a clear FOH area (table, riser, or flightcase) for control.
- **Console & Stagerack:** Band brings an Allen & Heath Qu-24 mixer and an AR2412 stagerack on stage (all instruments/mics plug directly into the AR2412).
- **Network Cable:** Venue provides 1x CAT5/6 cable (max 100m) running from Stage to FOH.
- **PA Connection:** FOH engineer outputs a main stereo mix (2x XLR L/R + Sub XLR) directly to the venue's PA system.

Monitoring

- **100% Self-Contained:** Band uses a fully wireless, self-mixed In-Ear Monitoring (IEM) system.
- **No Floor Monitors:** No stage wedges or sidefills required.
- **No Monitor Engineer:** No monitor mix/engineer needed from the venue.

Stage & Backdrop

- **Stage Dimensions:** Minimum required stage size is **8m x 4m**.
- **Backdrop / Banner:** Band brings a **5m x 3m** backdrop (fire-retardant, B1 certified).
- **Ego Risers & Dividers:** Band uses 2x ego risers at the front and 2x room dividers on stage (as shown on stageplot).
- **Power (230V):** Requires 3x power drops:
 - 1x at the IEM/Stagerack (Upstage Left)
 - 2x at the Front of Stage (Downstage Left & Right)

Disclaimer: If any of the requirements above cannot be met, please contact Quinten or Joey at least 7 days prior to the show.

Contact

Audio: Quinten Veen - 0623122195 - que_eventsupport@ziggo.nl
Band/tech: Joey Wouters - 0651506140 - electric.cowboynl@gmail.com

Minimum Stage Requirements: 8m x 4m

Backdrop / banner = 5m x 3m

FOH & Production Notes:

Engineer & Gear: We bring our own FOH engineer, digital mixer, stageblock, and self-mixed IEMs. No stage monitors needed.

Required from Venue:

- 1x CAT5 (or CAT6) cable from Stage to FOH (max 100m).
- L/R (+ Sub) XLR connection from FOH mixer to main PA system.
